

A Sprint fixed period or duration in which a team works to complete a set of tasks

An Epic is a big task or project that is too large to complete in one sprint. It is broken down into smaller tasks (stories) that can be completed over multiple sprints.

A Story is a small task . It is part of an Epic.

A Story Point is a number that represents how much effort a story takes to complete. (usually in form of Fibonacci series)

1- Very Easy task

2- Normal task

3- Moderate task

5- Difficult task

Storypoint -5 (1,2,3,5)

Planning estimates for the project.

Sprint 1

Flow Setup (Epic 1)

Creating the Flow in Global (Task 1) 1

Trigger (Epic 2)

Configuring Record Created trigger, Category is Empty (Task 2) 2

Classification (Epic 3)

Wi-Fi / Network branch (Task 3) 2

Projector branch (Task 4) 2

Total Story Point in Sprint 1= 1+2+2+2=7

Sprint 2

Classification (Epic 3)

Forgot password branch (Task 5) 2

Slow Computer branch (Task 6) 2

Email Notification (Epic 4)

Send Email to Caller > Email (Task 7) 3

Activation & Testing (Epic 5)

Activate the flow and test all branches and email (Task 8) 3

Total story Point in Sprint 2= 2+2+3+3=10

Total Story Points

Sprint 1 = 7

Sprint 2 = 10

Velocity= Total Story Points Completed / Number of Sprints

Total story Points= 7+10=17 (planned)

No of Sprints= 2

Velocity = $17/2 = 8.5$ (Story Points per Sprint, planned)

Actual velocity will be calculated after completion of the planned story points.
